Fish Collagen is composed of protein and amino acids. It is hydrolyzed to break down the protein into smaller molecules making it easier for the body to process.

Studies have indicated that collagen may help to improve joint and skin health. Fish Collagen is an excellent source of protein and contains many essential amino acids.

KEY BENEFITS:

- White to off white powder with neutral odor and taste (no strong fish odor)
- Highly soluble in water, even at room temperature
- Produced from the skins of North American deep water fish
- Kosher Certified
- Non-GMO
- Meets USP & JP requirements

FUNCTIONAL BENEFITS:

- Skin Health
- Joint Health

APPLICATIONS:

- Dietary Supplements
- Functional Foods
- Beverages
- Cosmetics
