Sodium Copper Chlorophyllin is a stable, water soluble derivative of Chlorophyll which is the naturally occurring pigment that gives plants their green hue.

## **FUNCTIONAL BENEFITS:**

### **Colorant**

Sodium Copper Chlorophyllin is highly soluble in water and can be used to impart vivid green color in dietary supplements (tablets/capsules), citrus-based dry beverage mixes, and personal care products.

### **Internal Deodorant**

Sodium Copper Chlorophyllin may help to reduce digestive tract odors related to a colostomy, ileostomy, or incontinence and may help to reduce odor related to halitosis.

## **Applications:**

- Dietary Supplements & Pharma Products
- Citrus-based Dry Beverage Mixes
- Personal Care Products

## **Key Benefits:**

- Meets USP Requirements
- Kosher & Halal Certified
- Water Soluble & more stable alternative to Chlorophyll
